

EducationUSA Tokyo - Instagram Live

EducationUSA Tokyo does not have a walk-in space. Also, we are being unable to accommodate all the U.S. institutions' requests to speak at our information session (webinars). Therefore, we will offer the institution the opportunity to speak with students via Instagram.

When U.S. institutions visit Tokyo and meet with EducationUSA advisors, there is an option of conducting Instagram Live on the EducationUSA Japan Instagram account.

Please note that due to the schedule conflict, we may not be able to accept all the requests.

If your current Japanese students return home or your alums would like to join on behalf of your institutions, we can also accept that request.

Please note that we currently do not provide this opportunity virtually; we only offer this opportunity to those who visit Tokyo and meet with us.

- Duration: Maximum of 30 minutes (including Q&A from live participants)
- Archive it on the EducationUSA Japan Instagram account for 30 days.
- The institution needs to follow the EducationUSA Japan account and like the post
- We deliver the session in Q&A style with the EducationUSA advisor and the U.S. HEIs.

Below are the examples of questions that we cover:

- School location (We will have a U.S. map for you to point out)
- Your school profile (Public/Private, 4 year/2 year, Liberal Arts, Research U, etc.)
- School mascot, school color (If you can bring your pennant, etc., please do)
- Your student's profile (Size of school, % of international students, etc.)
- Scholarship opportunities for Japanese students
- Intensive English programs, Conditional Admissions
- Safety issues
- Popular/ unique majors
- Comment for prospective Japanese students
